

Reviewing Your Child's Progress

Your child's progress will be monitored in a variety of ways:

- Your child's class teacher will be regularly involved in pupil progress meetings, this will be with members of the Senior Leadership Team including the Headteacher and Deputy Headteacher. Any concerns due to lack of progress will be identified and additional support put in place to address concerns.
- Each term your child's class teacher will review the child's Learning Plan and consider if he/she has met the target/s set in the previous term. New targets will be set accordingly.
- Any intervention groups that your child is involved in will be monitored by the Senior Leadership Team for how effective they are. If it is felt that a specific intervention is not working for your child, then an alternative may be discussed with their class teacher.
